Hunt and WestStar Break Ground on High Rise Project El Paso Downtown Business Community Celebrates

El Paso, TX (June 20, 2018) – Today, Hunt Companies, Inc. ("Hunt") and WestStar celebrated the groundbreaking of a landmark project that will bring the first high-rise office building to Downtown El Paso in almost forty years. Along with officials from the City of El Paso, El Paso County and countless civic and business leaders, Hunt and WestStar executives presented the most comprehensive set of images of the new multi-tenant, multi-level "Class A" office building. At 306 feet, WestStar Tower will be the tallest building in Downtown El Paso. Plans indicate that WestStar Tower will open during Summer 2020.

"We are proud to be breaking ground on WestStar Tower today for what we know will be a signature development for El Paso," said Josh Hunt, Executive Vice President of Hunt. "This project signals continued investment in downtown El Paso's economic revitalization, an increased tax base, and a competitive business environment for El Paso."

Hunt will move its headquarters from Mesa Street on the City's west side to the new facility in Downtown El Paso, bringing approximately 175 employees to the Downtown area. The office building will serve as the corporate headquarters for Hunt, occupying three floors of the building. The Hunt Family Foundation will also be located in the building.

WestStar will consolidate its four downtown facilities to the new office tower which will serve as the corporate headquarters for WestStar. WestStar will occupy three floors and will also have a commercial bank operation on the ground floor. WestStar will bring an additional 35 employees to Downtown El Paso. In total, WestStar and its affiliates will have approximately 260 employees working in the new location.

"At WestStar, we value the role our institution plays as a driver of economic development. It is exciting for us to be a part of such a tremendous catalyst for Downtown El Paso. Today, we are proud to break ground on the future home of WestStar and what we know will make a long-lasting impact on the Downtown economy and that of the entire region," said L. Frederick "Rick" Francis, Chairman and CEO of WestStar Bank.

"Diversifying our local economy is pivotal to the long-term success of El Paso," said Mayor Dee Margo. "Today's groundbreaking is another step toward decreasing the tax burden on residential taxpayers while increasing our commercial tax base. Not only does WestStar Tower align with the City's initiative on downtown revitalization, this development will be key in attracting new companies to move and invest into our community."

WestStar Tower will convey world-class architecture, state-of-the-art office space and beautiful views to commercial tenants in the heart of the city. On the ground level, the outdoor Hunt Plaza will feature a beautifully landscaped green space with outdoor seating and dining in a park-like atmosphere, which will also serve as a venue for community events. Occupying a full city block, the building will

offer proximity to area amenities such as Southwest University Park, the Museum District, San Jacinto Plaza, and the new El Paso Streetcar system.

"The construction of WestStar Tower is another boost to the great momentum being experienced in Downtown El Paso," said Joe Gudenrath, Executive Director of the El Paso Downtown Management District. "This building, from the very start of construction to well beyond completion, will dramatically change our downtown and reshape our skyline. The investment, the relocation of businesses to the downtown and the activity associated with a bustling high-rise building are all indications of our downtown vision becoming a reality. Thanks goes to Hunt and to WestStar for believing in and contributing to our redevelopment."

The overall project will include approximately 262,000 rentable square feet of true Class "A" space, 13,000 square feet of ground level office and retail space and 735 parking spaces in an 18-story commercial office building.

Project partners include Duda|Paine (architect), Gensler (design), OJB (landscape architect) and Moss (general contractor). Pre-leasing has begun. Sonny Brown & Associates are leading the leasing effort for commercial and retail users.
